

Comprehensive Medical Support & EMS Education That Goes Beyond the Call

At Phoenix Paramedic Solutions, we don't just provide emergency medical services—we empower individuals, organizations, and communities with life-saving skills, compassionate care, and a commitment to excellence.

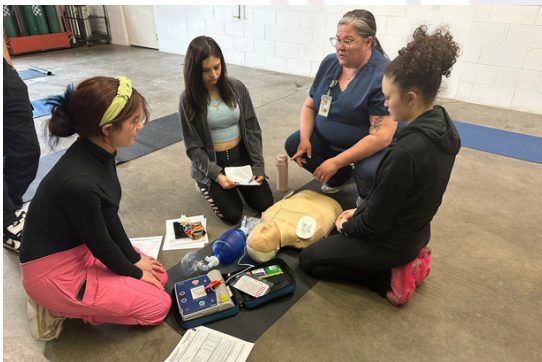

Emergency & Non-Emergency Medical Services

From critical care transports to event coverage and on-site medical standby, our trained professionals are trusted by healthcare systems, industrial sites, schools, and event organizers throughout Indiana. Every service is grounded in safety, efficiency, and human connection—ensuring patients receive respectful, rapid, and expert care every time.

Education & Workforce Development

We proudly offer a full spectrum of accredited EMS training programs, including:

- **EMT-B Certification** – Start your journey into the EMS field with Indiana State Certification.
- **BLS Provider CPR Training** – Master life-saving techniques for cardiac emergencies.
- **Stop the Bleed** – Learn how to control life-threatening bleeding.
- **Safe Sitter & Youth Programs** – Empowering the next generation through safety education.
- **Discovery EMS Camp** – Inspiring future healthcare professionals through hands-on summer experiences.
- **OSHA-Compliant Occupational Safety Courses** – Tailored for workplace compliance and team preparedness.

Led by nationally recognized instructors like Leighanne Randle-Ellis, our programs offer hands-on training, real-world simulation, and career mentorship.

What Sets Us Apart

The program offers accredited courses that exceed state and national standards, combining education with hands-on EMS experience. With strong ties to Purdue University and local employers, it uses innovative tools like simulation labs and custom curricula to support learners of all ages and backgrounds.
