

Compassionate Care. Community-Rooted Solutions

At Phoenix Paramedic Solutions, we don't just respond to emergencies – we transform lives. Our comprehensive behavioral health services are built on connection, compassion, and community collaboration. From the streets of Lafayette to the most rural corners of northwestern Indiana, we meet people where they are – physically and emotionally – to provide real hope and real help.

Our Services:

Behavioral Health Crisis Intervention

Operating 24/7 through “The Haven” Crisis Receiving Center, our Mobile Crisis Team offers rapid, trauma-informed response for individuals experiencing acute mental health or substance use challenges. We help people stabilize safely – away from jail or the ER – and connect them to long-term care pathways.

Peer-Based Recovery Support

Our Certified Peer Support Professionals walk alongside clients with empathy grounded in lived experience. Whether engaging individuals post-overdose or mentoring clients within shelters and jails, our peers ask: What does healing look like for you? Then we help make it real.

Counseling & Mental Health Services

From one-on-one coaching to therapy referrals and psychiatric linkage, we ensure every client has access to the support they need. Under clinical leadership, our team bridges the gap between crisis response and sustained mental wellness.

Mobile Integrated Health & Occupational Support

Beyond behavioral health, we provide 24/7 ambulance service, workplace health screenings, vaccinations, and care navigation. Our on-site clinics – like the one inside Lafayette Transitional Housing Center – reflect our belief in treating the whole person.

What Makes Us Different?

- **Peer-first model:** Staffed by those who've walked the path to recovery.
- **24/7 mobile crisis care** that diverts people from jail and ERs.
- **Trusted community partnerships** with shelters, law enforcement, and health systems.
- **Real results:** 74%+ successful engagement rates, overdose deaths down 26%, and hundreds of lives transformed.

At Phoenix, we believe “**connection is the opposite of addiction.**” That's why we act as the glue between emergency services and community care, ensuring no one falls through the cracks
